SURVEILLANCE FOR PROFESSIONALS

Ernitec proudly presents a new range of servers.

Viking Series

The Viking Series is a range of servers you can purchase off the shelf. The concept is designed to offer fast deployment of professional servers to the security industry. It includes both recording servers and clients.

The recording servers are equipped with some storage from the start and some of them have space for more, so just add more Harddrives and you get more storage. The servers are optimized for Milestone installations.

Optimized for Surveillance

The Viking range is engineered to reply the requirements we have in the video surveillance industry. Not only based on the used hardware and software also regarding the physical dimensions of the servers so that they can be installed almost anywhere.

Tuned and Tested

All systems have been hardware tested for 24 hours together with many unique system settings before leaving the assembly line to make sure that the server will run 24 hours per day. Year after year.

Viking-R1-4TB
Ultra short depth server

Main Features:

Intel Xeon D1518
(8 logical cores / 2.2GHz)

8GB Ram

250GB SSD For The Operating System

1x 4TB HDD For Video Storage

Windows 10 Pro 64bit Included And Installed

6x 1Gbit/sec 2x 10Gbit/sec Network Card

Specified For Installation's Up To 20 Cameras
And A Recording Bandwidth Of 120Mbit/sec

IPMI 2.0 Included

3 Year Warranty

Viking-R2-8TB
1 U   R a c k   S e r v e r

Main Features:

Intel Core i7 7700 (8 logical cores / 3.6GHz)

16GB RAM

250GB SSD For The Operating System

2x 4TB HDD For Video Storage

Windows 10 Pro 64bit included adn installed

Dual GbE LAN w/ Intel i219LM + i210AT

Specified For Installation's Up To 40 Cameras
And A Recording Bandwidth Of 240Mbit/sec

3 Year Warranty
